

Volunteer Policy

Aim

'It is our aim to ensure that all volunteers are aware of their rights and responsibilities, and that relevant procedures are in place for managing and supporting them.'

1. General Principles

Communityworks welcomes volunteers and recognises the vital contribution that volunteers bring to its projects. Communityworks accepts that people will volunteer for a variety of reasons and will come from a variety of backgrounds, have different life experiences, abilities, strengths and needs.

Communityworks recognises that volunteers can bring a different perspective to the work of its projects, often one that reflects the views of the local community.

The purpose of the policy is to provide a foundation on which our involvement with volunteers will be based. The document provides a set of guidelines to ensure that volunteers are fully supported during their volunteer experience. Being able to refer to a written policy ensures that decisions are not made on an ad-hoc basis.

We recognise that volunteering is a two way process and in return for the valuable time that volunteers commit to the project, we are committed to providing a positive volunteering opportunity.

Communityworks values this contribution and undertakes to follow the good practice guidelines set out below.

Volunteers will not replace paid staff, nor be used to expand the current range and volume of provision of the Centre.
